START WITH YOUR HEART

A contemporary guided reading series with Christian themes

Written in consultation with
Daniel O'Leary, author of
Begin with the Heart,
religious educators and
leading theologians

Start With Your Heart is a guided reading series designed to enable teachers and students to develop a deeper appreciation of God, already present in their lives, by reading together and engaging in Christian dialogue.

The levelled texts develop students' religious language and personal understanding of their relationship with God, Jesus, other people and the world around them. Students will also advance their conceptual understanding through oral discussion around the Christian themes.

The series is grounded in scripture and presents theology in a contemporary form.

Key Features

- Carefully levelled texts are designed for guided reading and development of Christian conceptual understanding.
- Educator's Guides include support notes for group discussion on the five themes: God, Jesus, Prayer, Scripture and Values.
- Levels 15–30 texts also feature topics such as Joy, Forgiveness, Compassion and Integrity.
- Interactive assessment activities support each text.

In the heart of God ... in the heart of life ... in the heart of the classroom.

LEVELLED TEXTS

The texts are levelled according to both reading ability and cognition of Christian concepts. Carefully selected images reflect contemporary life to support dialogue and personal responses within the various themes.

“Education is more about revealing than transmitting.”

"The good news can only be received within the context of each one's particular environment, language, images and experiences. Each individual heart, in its own personal truth and reality, is invited to respond."
